ARRIVAL OF THE STEAMER EUROPA.

INTERESTING NEWS.

THE FOREIGN NEWS.

The intelligence which we received by this arrival, (the steamship Europa,) confirms the sad news previously received of the fall of Hungary, and the suppression of liberty and liberal principles throughout the whole continent of Europe. In reviewing the events that have taken place in the old world, from the breaking out of the French revolution, we think the disastrous end which the liberal movement reached there may be traced directly to the conduct of the French provisional government. The members of that government, by the exercise of a sound discretion, backed by energy, judgment and determination, had it in their power not only to promote liberty in their own country, but to make it triumphant over all opposition in every nation in Europe. But they were not equal to the emergency—to the crisis—to the position to which they were so suddenly and so unexpectedly called. The imbecility and weakness displayed by Lamartine, the ignorance and folly of Ledru Rollin, and the ridiculous reveries of the socialists, were not the qualities requisite for the time. If the provisional government of France, instead of being timid almost to childishness—instead of being almost afraid, as it showed itself, of its own shadow, had taken the cause of liberty in hand with energy, the result would have been different. To sustain itself, and acquire the confidence and support of the French people, that government ought at once to have taken sides with the liberal movement in Germany and Italy, a promoted and favored it with all the means in its power. If it had done so, the probability is both countries would at the present time be republican. But France, under the provisional government, held back, followed a suicidal policy of non-intervention, and allowed the military despots of Austria and those of other countries to recover from their terror and consternation, which the then recent and alarming events had thrown them into, and enabled them to re-organize their forces and consolidate their power for a deliberate and systematic blow at the liberal cause. But they let the opportunity slip, and the folly and imbecility of the provisional government, as well as the impracticability of the socialist reveries, combined with the cunning of the capitalists and public men of France, brought about one of the most wonderful reactions the world has ever seen.

The cause of liberty, for the present, at all events, is hopeless in Europe. According to all appearances, there will be soon formed an unholy allianee against freedom, among all the despots. Louis Napoleon, it is said, is about to be wedded to one of the royal family of Sweden, and it is not at all unlikely that a private understanding exists between him and the emperor of Russia. The probability is, therefore, from these and other indications, that long before the time for which Louis Napoleon has been elected, he will endeavor, by the aid and assistance of his brother despots, to restore the empire in all its grandeur—to conciliate the military classes; tax the nation for the benefit of the capitalists to pay the interest on loans; encourage the trade of the cities and towns so as to keep the *bourgeoisie* quiet, and by such means reach the emperorship. All the commercial classes of Europe would be favorable to such a system of military government, because prosperity would follow the establishment of peace.

Such is the course which political matters may soon take in Europe, and such, in our opinion, is one of the principal causes which led to the fall of liberty in that quarter of the world. But we cannot think, for a moment, that order and quiet, produced in such a way, can be of long duration in this age of civilization. The various armies of the despots and sovereigns of Europe, numbering nearly two millions of soldiers, combined with with the influence of the stock-jobbers and capitalists, who draw their revenue, in the shape of dividends, from the vitals of the people, will, we firmly believe, be unable to make any such system permanent in Europe, as long as any liberty at all is allowed to the press, or railroads or telegraphs are established, or knowledge keeps increasing among mankind. The next revolution in Europe will not be a trifling one. The cry will be blood! blood! blood! till the earth is completely saturated, and the wrongs of centuries thoroughly washed out with it.

IRELAND.

LIVERPOOL, Sept. 1—10 A. M.

Charles Gavin Duffey is himself again. The Nation is once more re-issued—and we are in possession of the first number of the new series.

The paper is brought out in the usual types. Mr. Duffy addresses his readers in a leader of five columns, under title of the "The New Nation." His first paragraph runs thus:

"An Irish 'Rebel,' for whom the transport ship floated in Dublin harbor but four months ago; who has since seen his dearest friends and comrades carried away into penal exile; who sees wrongs they rose up to redress, at peril of their heads, daily widening, and aggravated since their fall; and who knows that the country they hoped to save is sinking deeper and deeper into an ignominious lethargy, is called upon to-day to show cause, if any there be, for still believing in the deliverence of Ireland."

The first number is free from the least tinge of "treason felony," but, as usual, it is well written, and bears upon it the stamp of Charles G. Duffy's preparation.

The rival journal—The Irishman—is still living—as bitter and biting as ever.

FRANCE.

LONDON, Sept. 1—11 A. M.

We are in possession of Paris advices of yesterday which state that the manufacturers' banquet to the President passed off with great *eclat*, and that he was received with enthusiasm.

ROME.

By Toulon advices of the 27th ult., we learn that two couriers had reached that place from Civita Vecchia, who state that the affairs in Rome are in a very unsatisfactory position. There appears to be an ill feeling between the Roman government and the French troops. The citizens of Rome were well affected towards the French soldiers, but the latter had become quite disgusted with the papal administration. The promises of the Pope are vague and unsatisfactory.

It was confidently asserted at Civita Vecchia, that the Pope had at last determined on going to Bologna, to place himself under the protection of Austrians, Neapolitans and Spaniards. There was much sickness at Rome; 2000 sick people had been sent to two hospitals at Toulon, proceeding from Civita Vecchia: and it was said more hospitals would have to be opened.

The army which was to leave Rome has been countermanded, as well as three field pieces of artillery. It was quite uncertain when the French would leave Rome, so complicated were matters at the date of our last advices.

HUNGARY.

The surrender of Comorn has been confirmed by the Continental advices which reached us this morning. According to last accounts, the city of Peterwardein had not surrendered.

FOREIGN ITEMS.

The Queen of England, on her arrival in the Irish waters, had her royalty first acknowledged by a poor fisherman, who rowed alongside her yacht and presented her with a fresh salmon he had just taken.

M'me Sontag has been so unwell as to be unable to appear in several pieces for which she was announced.

The Viennese dancers are about to appear in London.

Meyerbeer had left Paris.

A new shirt, called the *sans pli*, has made its appearance in London. It is made without gathers, and is said to be very airy and comfortable.

An attempt has been made to remove the West India steam-packet station from Southampton to Liverpool, but unsuccessfully.

At a meeting of the Italian residents in London the following resolution was passed: "That this meeting, highly condemning as tyrannical, infamous, anti-evangelical and impious, the conduct of Pope Pius IX, invites all the Italian patriots to follow the true religion of Jesus Christ, as followed by their ancestors, throwing aside their papal church, which is conspiring against the liberties of the people."

Another disgraceful affair has occurred in the English church. The Rev. Mr. Rooks, residing at Exeter, was sued by Mrs. Brooks for the seduction of her daughter. The jury found a verdict of £100.

The Queen, when she landed at Kingston, showed considerable uneasiness.

Fifty-three priests have been arrested at Rome by the established court of the Vicar General, for having been present at the decease of the republicans killed in defence of Rome, and for having administered to them the last consolations of religion.

The son of the king of Naples is about to enter a Spanish regiment as a serjeant.

The abominable court known as the palace court in London, has been abolished.

The paper money issued by Kossuth for the support of the war now bears a premium.

Russia produced in 1848, according to the official returns, $19,000,000 in gold, $200,000 in silver, 9.000 000 pounds copper, 150.000 tons of wrought iron.

Three thousand persons were presented to the Queen at her Dublin levee.

Armellini, one of the Roman triumvirs, is about to reside in Belgium.

From Havana.

The steamship Falcon, Capt. Hartstein, U. S. N., arrived here yesterday. By her we have received files of the Diario de la Marina and the Faro Industrial to the 1st inst. inclusive.

We have looked through these pages in vain for evidence of a movement of the disaffected, in confirmation of the report which was current in this city after the arrival of the British steamer Severn. No account is given of the movement of troops to those parts of the Island which are more assailable than Havana, altho' such has probably taken place in consequence of the receipt by the authorities of Gen. Taylor's proclamation relative to the supposed intentions of the Round Islanders.

The Diario of the 1st inst. contains an article extracted from the Boletin Official of Merido, of the 10th August, commenting on the information which the Governor of Yucatan had received, that 500 or 600 men, under the command of Col. White, were about invading the Peninsula, with the view of joining the Indian insurgents, and thus compelling the Yucateco authorities to pay them for their past services. The Boletin stigmatizes them as pirates, and declares that the Government owes them nothing. When Col. White's command left Yucatan they were paid, as that paper asserts, all that was due them.

As to the promises of grants of land which were made them in the original contract, they were only to be conceded on condition that they remained until the conclusion of the war. But the Government found it necessary to discharge them, in consequence of their want of dicipline, and their pernicious conduct, before the war was over, and they therefore forfeited all right to grants of land, since they did not fulfil the conditions of the contract.

The following are extracts from an Havana letter, published in the New Orleans Patriot:

After publishing the proclamation of the President of the United States, the Government has adopted precautionary measures, which give a still more terrible aspect to its acts. Almost all the newspapers and other periodicals from the United States have been detained, and I heard this morning, that, with the exception of the N. Y. Cronica, every periodical, Spanish, French and English, printed in the Republic, is strictly forbidden to be introduced into the Island. The curious regard with avidity the thick walls of the palace, anxious to ascertain what is passing within.

The movement of troops within the last few days gives rise to much speculation. Among the rumors which circulate sotto voce is one which gives out that in the near vicinity of Puerto Principe 8000 adventurers from the United States have disembarked, having General Don Narcisco Lopez at their head.

It is confidently stated that the regiment of Calabria, which was stationed at Puerto Principe, had pronounced in favor of Narciro Lopez; that the soldiers had killed their colonel, and done other outrages of a similar nature. It was this circumstance which induced the Captain General to put in movement several military bodies.

The steamers which run in the coast trade have been despatched with all haste to Trinidad, carrying round a portion of the troops, supposed to be the battalion of the 'Havana' regiment and a battalion of that of 'Spain.'

There is not a single man of war now in this port; even the brig Patriots, which just arrived from Vera Cruz, was forthwith loaded with powder and provisions, and set off again at midnight.

There has been a levy of veterans—men who had served before and been discharged—and the town of Regla is quite deserted.

The Delta publishes a letter from Havana, in which the large stories of its former letters are admitted to be inventions. Editorially the Delta says:

The alarm there, which our correspondent was induced, by the mysterious air and movements of the authorities, to construe into evidence of an uprising of the people, has happily proved to be without foundation.—[N. O. Picayuna, Sept. 7.

THE INSURRECTIONARY MOVEMENT ON THE ISLAND OF CUBA.—The Washington correspondent of the Atlas, in a letter dated 11th, writes as follows in relation to this subject:

"Letters were received yesterday from Mr. Campbell, consul at Havana, at the State Department, giving information of an attempt to revolutionize Cuba, and that a regiment which had been sent against the pronunciamentos, had raised the cry of "Viva la Republica, viva General Lopez." One of the privates having raised this cry, an officer stepped towards him with his drawn sword, and was shot down by a corporal. Other troops were sent against this regiment, and the revolters, but it was not known to what extent the troops were infected. General Campbell informed the Secretary of State that the situation of the American citi ens in the Island was somewhat critical, inasmuch as they were looked upon with suspicions as the promoters of the revolt, and he requested the presence of a ship of war for their protection. It so happened, fortunately, that the sloop of war Germantown had sailed from your port for H[illegible] day of the date of Gen. Campbell's letter. What the result of the attempted revolution may be, is yet to be seen, but there is no longer a shadow of doubt that it was made in concert with those who were engaged in enlisting men for the Cuban expedition in the United States, the time and place of its breaking out being foreknown by our government. The General Lopez, whose name was the watchword with the revolting regiment, is at present in New York, and has been one of the chief actors in the Cuban expedition. He is well known, and is a very ordinary fellow for a hero"

SAN FRANCISCO.

☞ *For new Advertisements, see 4th page.*

☞ *For Political Notices, see Supplement.*

☞ It will be seen that the form of the tri-weekly issue of the "News" is changed somewhat in appearance. This is owing to the reduced quantity of the large paper on hand. We regret that we are under the necessity of adopting this course, however temporary, but, so it is, and we must incur the extra labor, expense and inconvenience, with as much patience as possible. We confidently expect to receive a new supply of paper in the course of the present month; in the mean time we must preserve the balance of stock on hand for the weekly editions, which we find it necessary to *double* in quantity at least. By this arrangement we will in future, we hope, be enabled to supply all demands for papers for the steamer.

Proceedings of the Latest Public Meeting.

We publish, in another column, as an advertisement, inserted upon our usual terms, the proceedings of a Public Meeting held, in pursuance of a call addressed to Democrats, to assemble in Portsmouth Square, to hear the nominations made by the Nominating Committee which was chosen on Monday last, by ballot, in the large room of Capt. Dennison's Hotel. We know nothing (and we suppose the public knows nothing) of the authority by which this meeting was called together, nor of any special or general ground upon which it claims to speak in the name of the democracy of San Francisco. It appears, however, to have "unanimously adopted" the ticket reported by the committee as a ticket "to be supported" at the coming election. Now, if our memory serves rightly, this same ticket, thus "unanimously adopted" by the democratic meeting of Thursday, Nov. 1st, is, in all its main portions, at least, the *very same ticket*, which the democratic meeting of Saturday, Oct. 27th, expressly *refused* to adopt. The Governor is the same; the Lieutenant Governor is the same; the two Representatives to Congress are the same. All these men the democratic meeting of Saturday *refused* to adopt: and all these men the democratic meeting of Thursday following unanimously *adopted*.

Now we ask, in all candor and sincerity, *which* of these two meetings—the rejecting meeting or the ratifying meeting—*which* is the real democracy of San Francisco! Here are two voices of the democrats in mass meeting assembled. The one voice says *yes*: the other voice says "*no*." Which are we to believe is the true democratic utterance! In regard to the *authority* of the two meetings, and their right, respectively, to speak in the name of the democracy, we see but *one point* of difference between them. *That one point* is in favor of the the authority of the meeting of Saturday, which *refused* to ratify. It is this. The Saturday meeting was *convened* by a resolution, regularly proposed and adopted by the democratic mass meeting held two days before. The authority by which this other *ratifying* meeting was convened, is not known. On the very face of its proceedings, as reported by itself, no such authority whatever is made to appear. The irresistible inference is that it was *not* convened by any democratic organization, having any right whatever to represent the democracy of San Francisco, or to speak in their name.

Now in this state of things, is it any thing less than absurd, to allege that these two meetings, thus convened and thus contradicting each other, constitute any regular and valid and authoritative *organization* of the Democratic Party of California? Are *its* fortunes bound up in *their* fate? If *they* fail, does *it* fail? In the direct self contradiction apparent between these two assemblages of democrats, is the democracy itself stultified? We protest—we earnestly protest—against any such conclusion. We *deny*, if the ticket presented by this meeting

70

be beaten—beaten in one of its names or beaten in all of them,—we deny. and we place our denial on record before-hand—that the *Democracy of California* is thereby beaten. No set of men whatever, that we know of in California, or that anybody yet knows of, or can point to,—no clique—no association—has yet acquired any right whatever to act in the name of the democracy of California or of San Francisco—to pledge *its* party fealty to *their* candidates, or to set *its* mighty fortunes for weal or for woe, on the hazard of *their* die!

☞ The following communication is inserted by request as an advertisement. We give notice of this fact merely to show that our journal takes *by its insertion*, no ground whatever, either *for* or *against*, the election of the gentlemen of whom it speaks. There is some obscurity in the wording of the last sentence, speaking of his "experience in Congressional legislation;" but of course the writer does not mean to say that Mr. Price has ever been in Congress. As soon as we see fit to do so, we shall express, for ourselves, our own ideas as to the best and fittest men to represent our new State in the popular branch of Congress. At present, our journal has not proceeded on this point, beyond the expression of our firm conviction, formed upon the fullest reflection, that the Hon. T. Butler King, both in view of the platform on which he now stands and of his personal qualifications, is the best man we know of to be *one* of the U. S. Senators of California.

[Communication.]

Never, perhaps, did any new State, about to be admitted into the Union, require abler and more experienced representatives in Congress, than will California, at the approaching session. Very large appropriations will be required for river and harbor improvements, for public buildings, &c., &c, the labor in the construction of which works will also, probably, have to be provided for at nearly the present high rates. The question of ceding all the public lands of California to the State, will also be agitated, and perhaps disposed of, at the ensuing session. The great commercial, mining and agricultural interests of the new State, the contemplated communications between the Atlantic and Pacific, by means of railroads and magnetic telegraphs, and by steam navigation with China and the Islands, will, also, all require the constant attention of men of active minds, of persevering energy, and of great experience in the details of congressional legislation, particularly before the standing committees from which these important measures will emanate. For these reasons, it will be gratifying to the people of California to learn that, among the gentlemen put in nomination by the Democratic Nominating Committee of San Francisco, for the various offices to be filled under the new constitution, is Rodman M. Price, Esq. for Representative in Congress. Few men better qualified, in every respect, could be selected for that important station—few more thoroughly acquainted with the wants and interests of California. He has been in California since the year 1845, was present when the squadron raised the American flag in July, 1846, read the proclamation to the inhabitants on that occasion, was made by the Commander-in Chief first Alcalde of Monterey, was the first American who exercised judicial functions in California; and throughout the war was actively and honorably engaged in the service of the United States. Mr. Price, though for many years an officer of the Navy, was educated a lawyer, and it is understood has resigned his commission to resume the duties of his former profession. He has had much experience in the business of congressional legislation, as connected with the various departments of the government, and will therefore, if elected, go to Washington thoroughly versed in all the duties imposed upon him by his new station.

☞ At a Mass Meeting of the Democracy of san Francisco, held at Dennison's Exchange, Portsmouth square, on Thursday evening, Nov. 1st, Stephen Harris, Esq. called the meeting to order, and on motion, the Hon. John W. Geary was elected President, and Messrs Norton, Barry, and Rogers, Vice Presidents. H. Pierce, Secretary.

F. Tracy, Esq. of the democratic nominating committee, reported for the consideration of the meeting, the following Ticket, to be supported at the election Nov. 13, which ticket was unanimously adopted.

For Governor.
PETER H. BURNETT.
For Lieut. Governor.
JOHN McDOUGAL.
For Representatives to Congress.
George W. Wright,
Rodman M. Price.
For State Senators.
Talbot H. Green,
Geo. B. Post.
For Members of Assembly.
Wm V. Voorhies,
L. Stowell,
Edward Randolph,
J. A. Patterson,
J. H. Watson.

After the adoption of the above Ticket, the meeting was addressed by Rodman M. Price, Esq., Wm. V. Voorhies, Edward Randolph, Col. J. H. Watson, Hon. T. J. Henley, formerly M. C. from Indiana, Jos. Holt, from Arkansas, C. T. Botts, Esq. of Virginia, whose soul-stirring speeches roused up the old democratic spirit within the hearts of the audience. Allusions were made by the speakers to the great success of the democratic party during the last few months in the elections held in the States, and cheer upon cheer went up as the democratic States were mentioned. The necessity of party organization was urged, and responded to, by the audience.

After a vote of thanks to Capt. Saml. E. Dennison for the use of his fine room as a place of meeting, the following named gentlemen were chosen a "Vigilance Committee"

Stephen Harris,	Dr. J. H. Rogers,
John McGlynn,	Benj. L. Berry,

The subscribers would give notice that they have established an Express between san Francisco and sacramento city, with offices at Benicia and New York, and that the line will be immediately extended to Stockton.

We will attend to the carriage and delivery of specie, gold dust, and parcels of every description; to the collection of Drafts, Notes, Bills, &c.; to the purchase and forwarding of goods, and to the transaction of all other business which may be entrusted to us.

A responsible agent will pass between san Francisco and sacramento city, by the mail steamer Mint, making three trips each way per week. Another agent will be placed on board the steamer McKim, upon the commencement of her trips, and a daily communication will be established as soon as other steamers shall be placed upon the line.

For security, all valuable parcels will be deposited in our Iron safe, on board, and the utmost promptitude and exactness in forwarding and delivering all parcels entrusted to us may be relied upon.

Specie, Gold Dust and parcels for the United States, will be forwarded through the most responsible houses in san Francisco.

In san Francisco and sacramento city, parcels will be received at the offices, and will be delivered in any part of the city.

Offices.—san Francisco, sacramento st., first door above Kearny; Benicia; New York; sacramento city.

We solicit the patronage of the public.

STOCKTON FORWARDING, COMMISSION AND REAL ESTATE AGENCY.

The subscribers, under the firm and style of HEATH and EMORY, have completed their arrangements in the city of Stockton, and are now prepared, at their office and warehouse, at the corner of first and El Dorado sts., to freight to any part of the southern mines: comprising the Moquelemas, Angel's and Murphy's Camps, Wood's Creek, the Calaveras, Stanislaus, Tuoalome, Mercede, Mariposa and King's rivers. Teams and pack mules will start from their establishment every day for the above places.

The prices of freight, the time of starting, and all other matters of interest connected with the mines, or the facilities of getting to or from them, may be ascertained at their office. Goods and baggage will also be stored with great care, the subscribers having for that purpose erected a large, water-proof, plank-floored warehouse.

The subscribers also offer for sale 150 of the most valuable lots in the city, located in very desirable positions on both sides of the river. A map of the city may be seen at the office. RICH'D W. HEATH,
O. C. EMORY.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as, in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES.

THE HOSPITAL OF SAN FRANCISCO.

W. H. STIVERS, M. D. } Resident
J. F. TAYLOR, M. D. } Physicians.

Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and near the Post Office.

THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and DISTINCT from those devoted to patients

The Hospital of san Francisco is the FIRST, and, in fact, the ONLY Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where, comfortable quarters, good nursing, watchful medical treatment, and suitable diet will do all that human effort can do to alleviate suffering and restore to health.

The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.

TERMS.

1st class, one in a single room, neatly furnished, $16,00 per day.
2d class, two in a room, neatly furnished, each $10,00 per day.
3d class, in wards, neatly furnished, each $5,00 per day.

☞ In all surgical cases, and cases of Insanity, there will be an extra charge.

A CARD—MRS. MARION KING having rented the well Known house, formerly Gen. Smith's headquarters, now the United States Hotel, on Montgomery st., opposite central wharf; and having fitted it up with a view to the comfort of her guests, would beg leave to inform the public that she can accommodate about two hundred persons with board and lodging, and she pledges herself that neither pains nor expense shall be spared to give general satisfaction. xix uA.

A CARD.—Dr. R. McMILLAN having permanently located himself in san Francisco, will practice the different branches of his profession.

After several years spent in the best schools and hospitals in Europe conducted by the most able masters in the profession; after a long practice as surgeon in the U. S. army, and several years in civil life, he feels satisfied that he will be able to give very general satisfaction to those who may honor him with their confidence.

ALVESO.—The town of Alveso, situate at the head of the bay of san Francisco, will shortly be offered to the public in lots suitable for building purposes. The locality of this place possesses advantages of a nature so positive and apparent that a brief description must satisfy every one of the certainty of its becoming, ere long, a town of the highest importance. At the head of the great bay of san Francisco, on the Guadalupe river—a stream running directly through the centre of the town, and navigable at all seasons of the year to vessels drawing 12 feet of water—the depot and business headquarters of the two finest valleys in California—the santa Clara and Pueblo—where everything required for their already numerous population, must be received: convenient of access to the gold mines, and directly on the route between them and san Francisco; with a climate unequalled even in Upper California; with pure water; free from inundations at all seasons; leagues of woodland within a convenient distance, with mills which even now furnish lumber at one-third the price in san Francisco. The town of Alveso must grow into importance. The wants of the extensive country around, constantly increasing, require a commercial town at this point—the only one where such a town can be located.

The place will be immediately surveyed and laid out into lots of convenient size, by C. S. Lyman, Esq., surveyor, and maps will be published for the inspection of the public as soon as practicable. Contracts have been entered into for the erection of warehouses and buildings, and a substantial bridge is now being erected, connecting the two portions of the town. The title is perfect and indisputable, having been derived directly from the Mexican government, to persons who have since resided on the premises for nearly twelve years. Persons desiring to purchase will have preference in choice of lots in the order of the reception of their names by the undersigned. Address, post paid,

LOTS FOR SALE *in the city of south San Francisco*, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south san Francisco is situated two miles south of the city of san Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of san Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of san Francisco to the Pueblo of san Jose passes through south san Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to. On this road you travel along a beautiful valley of fine grass land to the puertesuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. HUNTER & BROTHER,
Agent for the Proprietors.

A good House with everything necessary for the accommodation of visitors is now established at south San Francisco.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1848; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains: and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, san Francisco. HIRAM GRIMES.

NOTICE TO SQUATTERS.—The undersigned begs leave to caution the public in general against squatting upon his farms or ranchos, as follows: One farm on the river Sacramento, extending to the mouth of Feather river and American Fork, known as *Rancho del Passo*.

Also, two ranchos on the San Joaquin river; one of 3 leagues, granted to Don Hernandez by Gov. Micheltorena, and adjoining the same; being one undivided half of 8 leagues granted by Gov. Micheltorena to Balentine Heguira, near the Pueblo pass.

All persons are hereby notified to abstain from taking possession of any portion thereof, at the peril of being proceeded against according to law.
iv tf HIRAM GRIMES.

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation, upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been prepared by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold, and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and san Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, san Francisco, and at the city of New York.

TOWN OF SUTTER.
(LATE SUTTERSVILLE.)

This town has has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines. The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and san Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.
